

Energy Sector Education and Training Authority

02 December 2010

Dear ESETA Stakeholder

Re: Introduction of the Nosipho Research and Development Management Consulting Firm

This is a follow up research exercise to the one conducted in August / September 2010.

The SETA has a requirement to produce a five year sector skills plan. As part of this research the SETA would like to get input from you as a stakeholder, of which we feel that such information is critical to understanding of the sector skills requirements as well as important for inclusion in the planning going forward.

As a major stakeholder, we wanted to take this opportunity to introduce you to the **Nosipho Research and Development Management Consulting Firm**, which has been appointed to assist the SETA in collating primary data through interviewing our stakeholders and carry out the required research which will lead to a development of a five year sector skills plan and strategy.

The Nosipho Research and Development Management Consulting Firm will be scheduling an appointment with you in the coming days. They will request about [an hour] of your time to respond to some of their questions.

Due to time constraints, submission date for 1st draft of plan being 30th January 2011, we are hoping to complete the interviews/meeting with all the stakeholders before the 10th of December 2010.

We appreciate any assistance you might be able to provide and value the input you give, which is expected to go a long way into the SETA's understanding and planning for the Sector.

Please do not hesitate to contact me regarding questions you may have.

Yours Sincerely,

PHAKAMA NKOSI - ACTING CEO

MILLIE RASEKOALA - SSP MANAGER
